Nova Security Services Ltd
Business Performance Dashboard

Purpose
This dashboard analyzes sales, profitability, customer behavior, product performance, and sales team effectiveness to identify growth drivers, performance gaps, and optimization opportunities for business decision-making.

Data Scope
Data is sourced from SAP and reflects order-level transactions for the selected time period (2024–2025).

Analytical Focus
- Analyze brand-wise and product-wise sales performance
- Evaluate sales contribution and profitability by account manager
- Identify top and underperforming customers and products
- Support data-driven sales and portfolio optimization decisions

How to Use
Begin with the Home page for overall business performance, then drill down into Orders, Customers, Products, and Sales Employee pages for detailed analysis using interactive filters and tooltips.
